

**Snodland Medical Practice, Catts Alley, Snodland, Kent ME6 5SN**

Managing your Healthcare Provision Online

Contacting you via Mobile phone, Text and Email

The Partners of Snodland Medical Practice would like to ensure that we have an up to date record of your email, address and mobile phone details so that we can contact you using these methods should we need to.

Online access

The Practice has a service which will allow patients to book Dr appointments with us, order repeat prescriptions online, and allow patients access to their own medical records. You will need to register with the practice to access this service, and once registered you will be given information that will enable you to create your own username and password.

Contact by email and text.

Even if you do not wish to register for online access, we would like to be able to contact you electronically, for health check appointments, annual checkups, blood tests, appointment reminders and follow up investigations. We will not include any clinical content. If you are content for this, please notify us of your up to date email and mobile number and sign below to show you will allow us to contact you in this way. This will be instead of postal communication and it will be your responsibility to keep the surgery updated of any changes to your email or mobile number. The emails will be sent from a secure 'nhs email' account, but we cannot guarantee security of your own emails. Initially there will not be a reply facility.

Please bring photographic identification with you and complete the form below:

First name:

Last name:

Date of Birth:

Address:
